Learn. Advance. Heal.*

NCDR Site Descriptor Database

- Houses our research site contacts
- Can be used for future study recruitment
- Tracks site research metrics

Helping Cardiovascular Professionals
Learn. Advance. Heal.

NCDR Prospective Research

ASCERT SYNTAX Study

60 CathPCI sites

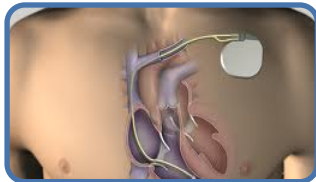

TRANSLATE

300 CathPCI sites

SAFE PCI for Women

50 high volume radial CathPCI sites

ICD Longitudinal Study

10 ICD sites

*Helping Cardiovascular Professionals
Learn. Advance. Heal.*

SAFE-PCI and CathPCI Registry

- Recruitment
 - 74 Site Surveys from potential SAFE-PCI sites
 - Executed 40 Data Release Consent Forms for participating CathPCI sites
- Data transaction
 - Daily transfer of CathPCI data to DCRI during the SAFE-PCI Study

*Helping Cardiovascular Professionals
Learn. Advance. Heal.*

NCDR Support - Challenges

- Vendor Data Collection System Constraints
 - third party vendor systems
 - Data submission for all patients vs. single patients
- Training of SAFE-PCI Sites
 - More frequent data submission
 - RSM vs. Research Mgr
- Funding
