

CSRC Public Meeting and Forums Committee

John Finkle, MD
GlaxoSmithKline

Purpose

- Broad based open discussions to address CV safety issue
 - Discuss practical solutions
 - Propose registries
 - Propose specific research
 - Serve as “incubator” for project which is then passed onto another organization
 - Set up collaborations with other organizations
- Document in publications (AHJ)

Recent Public Meetings

- National Registry on Safety and Atrial Fibrillation Ablation (SAFARI): An Incubator ThinkTank - April 2009, January 2010
- TransRadial Education Training and Therapy Initiative Think Tank Meeting (TREATT) June 2010
- Use of Cardiac Troponins in Clinical Development: white paper review June 2010

Co-sponsored Meetings

- CBI's 4th Annual Cardiac Safety Assessment Summit January 2010
- DIA Cardiovascular Safety in Drug Development: QT, Arrhythmias, Thrombosis, and Bleeding April 2010
- DIA Workshop: Cardiovascular Safety and Development of Type 2 Diabetes Mellitus Medications: Current State of the Art and Opportunities to Advance the Science

Planned Meetings

- SAFARI Executive Meeting Jan 2011
- TREATT 2 March 2011
- DIA Diabetes Meeting April 2011

- Evaluation of Clinical Cardiotoxicity in drug development
- Evaluation of Blood Pressure Effects of Investigational Compounds in development

Current Meetings

- Annual Meeting
 - Mini –symposia; important topics that will likely lead to further workshops and/or white papers
- Pediatric CV Safety:
 - This was idea generated by Matt Killeen – initially proposed as a white paper
 - Decided to hold meeting; base white paper on output
 - Decide on further growth of this topic after the meeting

Going Forward

- We have well established process and ability to handle logistics for public forums to address critical issues in CV safety of medical product
- It's not the role of the Executive Committee to generate ideas – rather we just facilitate the process
- The ideas come from you
- Please submit
